

10 reasons why choosing Coverplas side nets always provides better net results.

1. Easier to handle than extruded or bale net.
2. Faster rate of application/removal and lower labour costs.
3. 2-3 times longer life provides a better return on investment than extruded or bale net. Less recycling required.
4. Low capital outlay costs compared to drape nets.
5. Ideal 10mm mesh size even keeps wax eyes out.
6. Better abrasion resistance, strength and durability
7. Coverplas Locknet is knitted not extruded from superior HDPE round monofilament yarns.
8. Lockstitch knitting design means nets will not ladder, fray or run like extruded or bale net.
9. 10 year prorata UV warranty.
10. Permanent Installation netting options suitable for wildlife, insects and vermin protection are available.
