PREMIUM BIRDNETS FOR SUPERIOR CROP PROTECTION

PREMIUM, WORRY FREE FRUIT PROTECTION IN 5 EASY STEPS

1. Permanently secure net to end post of the row

2. Permanently secure net to bottom wire with clips or zip ties

3. Bunch up and roll net and secure to wire with ties or bands.

4. To apply, unroll net, lift and attach both panels to top wire using clips. Clip together the two panels along the top to seal the perimeter.

5. To remove nets, reverse steps 4 and 5. Leave on vines for next season.

To re apply in following seasons, follow steps 4 and 5. Simple.
